

Environmental / Green Policy of CSIBER

Context :

CSIBER is situated in the heart of Kolhapur city and spread over an area of 12.0 acre of land . Since its inception, the institute has placed sustainable initiatives at the centre of all of its endeavors. Institute is aimed at balancing environmental protection and the conservation of natural resources with other policy goals, such as affordable energy, air and drinking water quality monitoring, and rainwater harvesting. The Green Campus Committee of the college has established a clean and green campus with awareness and protection and fulfilling environmental goals and sustainable development goals set forth to implement the same from time to time. Students are frontiers and staff members are supporting the implementation of the environmental policy.

Environmental Policy of the Institute:

“Managing Environmental Aspects significantly with help of advanced technology to minimize our carbon footprints”

Scope of the Policy :

The scope of the Policy is restricted to CISBER Campus over an area of 12 acres of land. Green initiatives call for a thorough review of infrastructural, administrative functions from the standpoints of energy efficiency, sustainability and the environment

The focus areas of this policy are:

- ❖ Clean Campus Initiatives
- ❖ Landscaping of open spaces
- ❖ Clean Ambient Air Quality (AAQ) Initiatives
- ❖ Sound Proof Class Rooms
- ❖ Smoking Free Campus
- ❖ Infrastructure development
 - Solar Power Plant
 - Installation of Energy Efficiency Equipment
 - Water Conservation through Rainwater Harvesting System
- ❖ Waste Management
 - Solid Waste Management
 - Liquid Waste Management through Sewage Treatment Plant
 - E-Waste Management

- ❖ Awareness Initiatives through street play and rallies
- ❖ Environment-centric Student Societies and Department Activities
- ❖ Green Audit
- ❖ Energy Audit
- ❖ Plastic-Free Campus
- ❖ Environmental and social outreach programs

Objectives of Green Initiatives:

- To implement 'Go green' policy for Environment Management in the campus.

Landscaping of open space

Existing Plantation on campus

- To review the Environmental quality status of the campus in terms of water and ambient air quality

Water cooler with RO system

Rainwater Harvesting (Storage Tank)

- To identify opportunities to save and conserve energy.

Roof top Solar Panel

Solar Water Heater

- To encourage students and Staff Members to participate in the cleanliness drive in the college campus.

On campus Swachata Abhiyan drive

On campus Swachata Abhiyan drive

- To organize workshops on the on environmental awareness

Environmental awareness through Street Play

Environmental awareness through Street Play

Environmental awareness through Rally

Environmental awareness through Rally

- To see that proper steps have been taken to maintain sustainability and to prevent adverse effects of Air, Water, Noise and Solid Waste pollution on environment.

Noise testing due to fire crackers in collaboration with Maharashtra Pollution Control Board, Kolhapur and Police Department.

Noise testing due to fire crackers in collaboration with Maharashtra Pollution Control Board, Kolhapur and Police Department.

- To reduce, recycle, reuse waste and dispose waste scientifically.

On campus sewage Treatment Plant

On campus Vermicomposting

- To protect and conserve ecological systems and resources within the campus.

Plantation drive

Plantation drive

- To remind students and staff to keep the college campus clean by administering the pledge.
- To see that proper steps have been taken for maintaining health and welfare of the Students and staff of the CSIBER Institute, Kolhapur.
